

AVENCORE

You are an Engineer?

You are looking for:

- Observing tangible and measurable impacts of your work on important, valuable projects
- Intellectually stimulating projects on concrete issues related to industrial products and systems
- Voicing your entrepreneurial spirit and take part in the growth of a rapidly changing company
- Finding out about industrial sectors, products, kinds of missions, cities, organizations...
- Being at the heart of it all, directly at the clients, working autonomously within 2- to 4-people teams
- Making full use of your non-technical skills: presentation, communication, animation, synthesis, customer relation, handling the issue's economic aspect...
- Tailored training to boost your methodological skills, strengthen your soft skills and expand your industrial culture
- Regularly working in English
- Progressing within a human scale company with a flat organization: the door of the company's directors and founders is always open
- Time for yourself, with a real work-life balance

Join Avencore :

Avencore is an international consulting firm specialized in the manufacturing industries. With our clients, we deploy creative, innovative and efficient solutions to achieve operational excellence and face the strategic challenges. We operate for large global groups as well as for mittelstand, in every industry sector: aviation, space, energy, transportation, consumer goods, process industry, health, automotive...

Avencore intervene alongside its clients on issues related to executive management, both on strategic and operational matter. For every mission, we deploy a holistic approach involving After Sales, Engineering, Marketing, Production, Purchasing, Quality, Supply Chain...

Consultants from Avencore are all engineers, distributed across 4 offices in Paris, Düsseldorf, New York and Shanghai.

They operate directly at the clients within human scale (2 to 4 people), agile teams on any kind of mission.

Our missions typically last 3 to 12 months.

We recruit Consultant as intern and permanent position.
